

Knowledge Palette Raised Series B Finance from Zeon Corporation

Knowledge Palette, Inc., a company developing platforms of phenotypic drug discovery and regenerative medicine, today announced the execution of Series B financing from Zeon Corporation.

By allocating the proceeds from the finance to our R&D and recruitment, and also by utilizing resources of Zeon Corporation in Japan and overseas, we will accelerate development of technologies and collaborative researches with our partners to build platforms of drug discovery and regenerative medicine, which could be applied to a wider range of diseases.

About Knowledge Palette, Inc.

Knowledge Palette is a Japanese biotechnology company conducting phenotypic drug discovery, biomarkers identification, and improvement of regenerative medicine manufacturing based on our single cell transcriptome analysis technology (Quartz-Seq2), which was ranked No.1 for both accuracy scores and overall scores in an international benchmark project in 2020. We are collaborating with pharmaceutical companies and research institutes on acceleration of drug discovery as well as optimization of cell culturing for regenerative medicine.
